

CHAPTER 1

Appendix

1.1. Notation

- Sets are usually denoted with capital letters, e.g., $A, B, C, \dots$ etc; and elements in sets are usually denoted with lowercase letters $a, b, c, \dots$.
- If a is an element in the set A , we write $a \in A$. If a is not in A we write $a \notin A$ (slashes usually mean negation).
- A set with no elements is called the *empty set*, denoted $\emptyset$.
- $\mathbb{R}$ the set of all real numbers.
- $\mathbb{C}$ the set of all complex numbers.
- $\mathbb{Z}$ the set of all integers.
- $\mathbb{Q}$ the set of all rational numbers.
- $\mathbb{N}$ the set of natural numbers.
