

Use the given conditions of the line to complete the following.

1. The line passes through $(-3, -2)$ and $(3, -2)$.
a. Write the point-slope form of the line.

- b. Write the slope-intercept form of the line.

- c. Find the x -int and y -int.

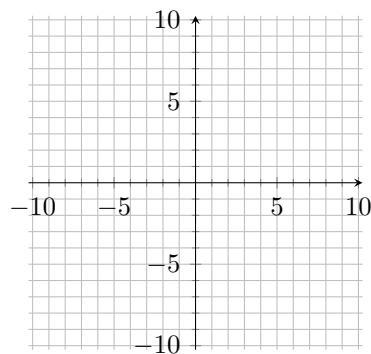

- d. Domain:

- e. Range:

- f. Graph the line:

2. The line has an x - intercept = 4 and y - intercept = -2 .

- a. Write the point-slope form of the line.

- b. Write the slope-intercept form of the line.

- c. Domain:

- d. Range:

- e. Graph the line:
